ARTICLE V

Town Parks, Recreational Areas, Cemeteries, Special Events

200-42: Outdoor Festivals, and Special Events.

I. The purpose of this ordinance is to establish procedures for the issuance of permits by the Select Board for large events in any area of town. The Select Board shall consider the effect the event may have on the abutters and residents in the affected neighboring communities and address concerns including, but not limited to, parking, noise, lighting, and traffic. Such events must provide for orderly and safe use of public streets and provide adequate parking and sanitary facilities for use by those members of the public who desire to attend such an event.

II. A "Special Event" includes parades, carnivals, fairs, race events, competitions, festivals, music events, or any other event held on public or private land, which is expected to cause a large public gathering that is not part of normal business at that location. A "Special Event" will include at least one of the following: the need to erect structures for the event (portable toilets, tents, or other erected facilities), the need to close one or more roads or public ways for the event, or the need for exclusive use of town property for the event. The event shall be considered temporary in nature with no expectation of becoming permanent. "Special Events" SHALL NOT include private residential parties or events such as graduations, weddings, funerals, etc. which are held on private property; or any small fundraising event for religious, non-profit, or charitable organizations. Free speech events such as protests or rallies, and spontaneous events such as a celebration in honor of a sports team will not require permits under this ordinance. Such events should not block vehicle or pedestrian traffic and must follow other appropriate ordinances and state laws. The provisions of this ordinance shall not apply to the Town, its school district, or other departments acting in their governmental capacity. Block parties are covered elsewhere and thus are also not covered by this ordinance.

III. No person or company may conduct, host, organize, or facilitate any special event unless a permit is obtained by the Select Board. Any special event without a permit is subject to immediate closure and the person or company that conducted, hosted, organized or facilitated the event is subject to a two-hundred fifty dollar (\$250.00) fine; and may be subject to further penalty under NH RSA 286:5.

IV. Any person or company who wishes to conduct a special event should apply for a permit to the Select Board at least 60 days prior to the commencement of such event.

The application fee for the permit shall be ten dollars (\$10.00), which may be waived at the discretion of the Select Board.

V. The Select Board shall request, and take into consideration, input from the Police Department, Fire Department, and the Health Officer prior to the issuance of a permit. The Select Board may also provide an opportunity to receive public input regarding the event.

VI. The Select Board may place any additional conditions that they deem necessary in the permit. Conditions are not limited to: hours or days of operation, parking, availability of water, toilet facilities, noise restrictions, required police, fire, or highway services. The Select Board may require a bond, security, or insurance rider that they feel might be warranted by the event. The Special Event Permit does not over right, supersede, or negate any other applicable permits that must be obtained. These may include, but not limited to NH Liquor Commission, NH DOT, NH Fire Marshall, NH Department of Health.

200-70: Regulating Alarm Systems

I. Definitions: For the purpose of this ordinance, the following terms, phrases, words and their derivations shall have the meaning given herein. When not inconsistent with the context, words used in the present tense include the singular number, and words in the singular number include the plural number. The word "shall" is always mandatory and not merely directory.

- A. Alarm System: is an assembly of equipment and devices, or a single device, arranged to signal the presence of a hazard requiring urgent attention and to which Police and/or Fire Departments are expected to respond. In this ordinance, the term "alarm systems" shall include the terms "Dial Alarm", "Local Alarm" and "Manual Alarm", as those terms are hereinafter defined.
- B. Alarm Installation: is the design, installation, repair, alteration and maintenance of systems causing an alarm to be sounded in the event of burglary, holdup, fire, or the occurrence of a predetermined inimical event.
- C. Alarm User: is any person on whose premises an alarm system is maintained within the Town of Wilton, except for alarm systems on motor vehicles or proprietary alarm systems. If, however, an alarm system is on a motor vehicle other than a proprietary system (which does not include a signal line connected directly or indirectly to a Police Communications Center, a central station or answering service) the person using such system is an alarm user.
- D. Person: is any natural person, legal entity, corporation or incorporated association.
- E. Alarm Monitoring Facility: is a facility located at headquarters which is monitored by employees who receive, record and validate alarm signals transmitted from private alarm systems.
- F. Proprietary Systems: is all alarm systems sounding and/or recording alarm and supervisory signals at a control center located within the protected premises, the control center being under the supervision of the proprietor of the protected premises or his employees or agents. If a proprietary alarm system included a signal line connected directly or by means of a dialing service to a Police Communications Center, a central station or answering service, it thereby is deemed to be an Alarm System as defined by this ordinance.
- G. Answering Service: is a telephone answering service providing among its services the service of receiving emergency signals from alarm systems and thereafter relaying the message by voice or otherwise to the communications center of the Police Department.

- H. Central Alarm Station: is any facility which is privately owned that owns or leases alarm systems, whose facility is staffed by employees who receive, record or validate alarm signals and relay information about such signals to Police Headquarters, by any means.
- I. Dial Alarms: is an alarm system which automatically selects a telephone line connected to a Headquarter and reproduces a prerecorded voice message or coded signal indicating the existence of an emergency situation that the alarm system is designed to detect.
- J. Direct Alarm: is an alarm system which transmits a signal over a telephone line to a Police alarm monitoring facility at Police Headquarters.
- K. Local Alarm: is any alarm system not connected to the Police Alarm Monitoring Facility or to a private central alarm station or answering service, that is deigned to activate at the premises within which the alarm system is installed with the purpose to elicit a police response to a burglary, robbery, or attempted robbery/burglary, or fire. Such terminology does not include alarms caused by electrical storms or other acts of god.
- L. Manual Alarm: is any alarm system in which activation of the alarm is initiated by the direct action of the alarm user or his agents or employees and if installed with the purpose to elicit a police response to a burglary, robbery, or attempted robbery, or a Fire Department response.
- M. False Alarm: is any activation of any alarm system to which the Police or Fire Departments respond which is not the result of a robbery, burglary, attempted robbery/burglary, or fire. Such terminology does not include alarms caused by electrical storms or other acts of god.
- N. Town: is the Town of Wilton, New Hampshire.

II. Permit Application Required: The Chief of Police or the Fire Chief of the town is hereby authorized to issue a permit to any applicant for burglar, intrusion, panic or fire alarms respectively, as to property within the Town of Wilton, to install, maintain and operate thereon an alarm system upon application to him, and subject to the following provisions:

- A. Such an application shall describe the premises on which such alarm system is to be located.
- B. Shall state the name, address, and telephone number of the applicant and the person who is responsible for the upkeep, maintenance, and operation of the alarm system.
- C. Shall describe the system and shall give the name, address and telephone number of the legal entity who is responsible to the owner for the maintenance of such an alarm system, and any State of New Hampshire license issued to such legal entity.

III. Absence of Permit: No person, including a natural person and/or legal entity shall install, maintain or operate within the Town an alarm system without a permit issued hereunder.

IV. Installation of Alarm Systems: No alarm system, as herein defined, shall be installed and activated, without a permit issued to this ordinance.

V. Existing Alarm Systems: Alarm systems presently operating shall conform to this ordinance prior to continued operation thereof.

VI. Issuance of Permit: The Chief of Police or the Fire Chief upon application to him/her for a permit shall, in his judgement, determine whether the application conforms to the requirements of this ordinance; that the facts stated therein are true and accurate. The Chief of Police or the Fire Chief, upon receipt of the fee required hereunder and review of the application and compliance by the applicant of this ordinance, shall issue to the applicant a permit to install, maintain and operate the proposed alarm system.

VII Permit Fee:

- A. Each applicant shall pay to the Town of Wilton, a permit fee of ten (\$10.00) dollars.
- B. There shall be an annual renewal fee of five (\$5.00) dollars.

- D. Federal, State, County or Local Government agencies who operate alarm systems shall be exempt from the payment of a fee.

VIII. Denial, Suspension or Revocation of Alarm Users:

- A. The Chief of Police or Fire Chief, upon notification to him that the department has received four false alarms from a permittee may summarily temporarily suspend the alarm user's permit pending notice and hearing.
- B. If, after due notice and hearing, the Chief of Police or the Fire Chief determines, in his/her judgement, that the alarm user will not undertake reasonable action to eliminate the cause of such false alarms or that the alarm user is not able to take such reasonable action, he may revoke such permit.
- C. The alarm user at such hearing shall have the right to present evidence, to cross examine witnesses and to be represented by counsel. Such hearing shall be conducted in an informal manner, the rules governing courts shall not apply and hearsay shall be admissible.
- D. An alarm user whose permit has been revoked may reapply for a new permit. Upon such re-application he shall demonstrate to the Police Chief or the Fire Chief that the cause of prior revocation has been eliminated and/or corrected or is not likely to reoccur. Any person aggrieved by any decision of the Chief of Police or Fire Chief made under the provisions of this ordinance shall have the Right of appeal to the Board of Selectmen. Such appeal shall be in writing and filed with the Board of Selectmen within ten (10) days of the decision appealed from. The said appeal shall fully state the grounds for appeal. The Board of Selectmen shall set a date for the hearing of the appeal and notify

the appellant of the date for the hearing, shall hold said hearing promptly and, after hearing shall decide the matter within a reasonable time, and notify the appellant thereof. The appellant shall have the right of appeal to the Superior Court for the County of Hillsborough in accordance with existing law.

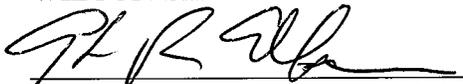

IX. False Alarms – Prevention and Payments of Cost:

- A. When emergency messages are received by the Police or Fire Departments that are the result of a failure to comply with the requirements of this ordinance, the Chief of Police or Fire Chief is authorized to demand that the owner or lessee of such device, or his representative disconnects such device until it is made to comply with said requirements.
- B. Any alarm user having an alarm system on his or it's premises, and any user of alarm services or equipment designed and installed with the intent of eliciting a Police or Fire Department response shall pay the Town of Wilton a charge for each and every false alarm to which the Police or Fire Departments respond in each calendar year as follows:
 1. The alarm user of any alarm system shall be assessed a service charge of twenty-five (\$25.00) dollars for each false alarm transmitted by such device after three (3) false alarms in a calendar year, where such false alarms result in a response by the Police or Fire Departments.
 2. Failure to pay such false alarm service charges in thirty (30) calendar days shall subject such alarm user to suspension of their alarm user's permit by the Chief of Police or Fire Chief pending a hearing.
 3. An alarm user may appeal false alarm service charges in writing to the Board of Selectmen within ten (10) days after receipt of notice of penalty.

X. Liability of Town Limited: The Police and Fire Departments of the Town of Wilton shall take every reasonable precaution to assure that the alarm signals and prerecorded alarm messages received are given appropriate attention and are acted upon with dispatch. Nevertheless, the Police and Fire Departments of the Town of Wilton shall not be liable for any defects in operation of alarm devices, for any failure or neglect to respond appropriately upon receipt of an alarm from such a source, nor for the failure or neglect of any person in connection with installation and operation of alarm devices or their components, the transmission of alarm signals and prerecorded alarm messages or the relaying of such. If the Police or Fire Departments of the Town of Wilton find it necessary to disconnect an alarm device, the Department shall incur no liability by such action.

XI. Operating an Alarm System After Revocation Penalty: Any alarm user who, after having a permit revoked and after exhausting his right to a hearing, fails to disconnect his alarm system, or who knowingly operates an alarm system without first obtaining a permit, shall be guilty of a violation, and upon conviction, shall be fined not less than one hundred (\$100.00) dollars.
